Ralph Harvey
DVM. MS, Diplomate American College of Veterinary Anesthesia and Analgesia
Veterinary Specialist: Anesthesia and Pain Management,
Zoetis Petcare, Veterinary Professional Services

Dr. Harvey grew up in Knoxville, Tennessee. He studied genetic toxicology at UNC-Chapel Hill and worked for the NIH before obtaining his veterinary degree from the University of Tennessee. Dr. Harvey worked in private practice and completed an internship and residency in anesthesiology at Cornell University. He spent over three decades of his career on faculty at the University of Tennessee where he became an associate professor and head of the surgical services section. He is the author of over 50 peer-reviewed publications and over 20 textbook chapters.

Dr. Harvey has been a member of the Advisory Panel for Fear Free Pets since its inception and Chair of the Veterinary Advisory Board for the BioTraceIT corporation. He is a renowned speaker and was named the Small Animal Speaker of the Year at the Western Veterinary Conference in 2023.

IMPORTANT SAFETY INFORMATION: For use in dogs only. Women who are pregnant, trying to conceive or breastfeeding should take extreme care to avoid self-injection. Hypersensitivity reactions, including anaphylaxis, could potentially occur with self-injection. LIBRELA should not be used in breeding, pregnant or lactating dogs. LIBRELA should not be administered to dogs with known hypersensitivity to bedinvetmab. The most common adverse events reported in a clinical study were urinary tract infections, bacterial skin infections and dermatitis. See full Prescribing Information at LibrelaPI.com
